Safety Data Sheet (SDS/MSDS): Chlorhexidine 2%

16-section OSHA/GHS aligned reference sheet | صحيفة بيانات سلامة مرجعية من 16 قسمًا

Product identifier	Chlorhexidine gluconate/chlorhexidine antiseptic solution 2%; exact product formula not provided
Recommended use	Topical antiseptic/skin preparation only as labeled. Avoid eyes, ears, mouth, meninges, and internal use unless product is specifically intended.
Prepared for	Al Sultan Medical Complex / مجمع السلطان الطبي
Date prepared	17 August 2026
Verification note	Exact salt form, excipients, alcohol content, and manufacturer data were not provided. This SDS uses chlorhexidine safety data and general warnings for chlorhexidine gluconate products.

1. Identification / التعريف بالمادة

Product identifier	Chlorhexidine 2%
Other means of identification	Chlorhexidine gluconate/chlorhexidine antiseptic solution 2%; exact product formula not provided
Recommended use/restrictions	Topical antiseptic/skin preparation only as labeled. Avoid eyes, ears, mouth, meninges, and internal use unless product is specifically intended.
Supplier/manufacturer	Not verified from attachments; obtain original manufacturer SDS for supplier details.
Emergency phone	Use local emergency services/poison center; product-specific number not verified.

2. Hazard(s) Identification / تحديد المخاطر

Classification	May cause serious eye injury if misused in eyes; may cause allergic reactions in sensitive individuals. Environmental hazard depends on concentration/formulation.
Signal word	Warning / Danger depending on exact formulation
GHS pictograms	Exclamation mark; Corrosion/health/environment may apply for concentrated ingredients
Hazards not otherwise classified	Commercial product-specific hazards may exist if the actual formula contains unlisted additives.

3. Composition / Information on Ingredients / التركيب والمكونات

Ingredient	CAS/Identifier	Concentration/status

Chlorhexidine or chlorhexidine gluconate	CAS varies; chlorhexidine CAS 55-56-1	2% stated by product name; salt/formulation not verified
Water, surfactants, colorants, alcohol or other excipients	Mixture	Not verified

4. First-Aid Measures / الإسعافات الأولية

- Inhalation: move to fresh air if mist/vapor causes irritation.
- Skin: normally intended for skin; rinse if irritation, rash, or allergy appears.
- Eyes: rinse immediately and thoroughly with water; seek urgent medical attention because chlorhexidine products can cause serious eye injury.
- Ingestion: rinse mouth; do not induce vomiting; seek medical advice.

5. Fire-Fighting Measures / مكافحة الحريق

- Use extinguishing media suitable for surrounding fire.
- If formulation contains alcohol, treat as flammable; exact alcohol content not verified.
- Firefighters should use SCBA if irritating fumes are present.

6. Accidental Release Measures / إجراءات الانسكاب العرضي

- Wear gloves and eye protection.
- Absorb with inert material and place in suitable waste container.
- Prevent bulk release to drains and waterways.

7. Handling and Storage / التداول والتخزين

- Use only as directed. Avoid eyes, ears, mouth, and neural tissue exposure.
- Do not mix with incompatible detergents/chemicals unless manufacturer permits.
- Store tightly closed at room temperature away from excessive heat and light.

8. Exposure Controls / Personal Protection / التحكم بالتعرض ومعدات الوقاية

- No product-specific occupational limit available.
- Use normal ventilation; avoid aerosolizing.
- Wear gloves/eye protection for bulk handling.

9. Physical and Chemical Properties / الخواص الفيزيائية والكيميائية

Appearance	Liquid solution; color not verified
Odor	Mild/characteristic; not verified
pH	Not verified
Flash point	Not verified; depends on alcohol/excipient content
Solubility	Aqueous solution/dispersible

10. Stability and Reactivity / الثبات والتفاعلية

- Stable under normal storage.
- Avoid strong oxidizers and incompatible detergents/anionic compounds unless compatibility is confirmed.

11. Toxicological Information / المعلومات السمية

- Eye exposure can result in serious and permanent injury.
- May cause skin sensitivity/allergic reaction; persons with chlorhexidine sensitivity should avoid.
- Systemic toxicity is possible if large amounts are ingested or applied improperly.

12. Ecological Information / المعلومات البيئية

- Avoid release to the environment; biocidal active ingredients may be harmful to aquatic organisms.
- Product-specific aquatic data not verified.

13. Disposal Considerations / اعتبارات التخلص

- Dispose of unused product, residues, and contaminated packaging according to Saudi/local hazardous waste and infection-control procedures.
- Do not pour concentrated hazardous chemicals to drain unless the product label, facility procedure, and local regulation allow.
- Do not mix chemical waste streams; segregate oxidizers, flammables, chlorine-releasing products, and antiseptics.

14. Transport Information / معلومات النقل

- Not expected to be regulated as dangerous goods for a typical non-alcoholic 2% aqueous antiseptic; verify if alcohol or other regulated ingredients are present.
- Transport classification can change with package size, concentration, and local modal rules; verify before shipping.

15. Regulatory Information / المعلومات التنظيمية

- Prepared to follow the 16-section SDS format used in OSHA/GHS-aligned hazard communication.
- Sections 12-15 are included for completeness although some jurisdictions treat them differently.
- This document is not a substitute for the original manufacturer SDS, label, Ministry/SFDA requirements, or facility chemical risk assessment.

16. Other Information / معلومات أخرى

Prepared by	Codex-assisted reference compilation for Al Sultan Medical Complex
Revision	1.0
Preparation date	17 August 2026
Reliability statement	Public authoritative sources were used where available; unverified commercial product data are explicitly marked.
