Safety Data Sheet (SDS/MSDS): Handy Gel Sanitizer

16-section OSHA/GHS aligned reference sheet | صحيفة بيانات سلامة مرجعية من 16 قسمًا

Product identifier	Commercial alcohol hand sanitizer gel; exact formula not provided
Recommended use	Hand sanitizing only as labeled. External use only; keep away from ignition sources.
Prepared for	Al Sultan Medical Complex / مجمع السلطان الطبي
Date prepared	17 August 2026
Verification note	Brand/product formula, alcohol type and percentage, denaturants, fragrance, and manufacturer data were not provided. This SDS uses ethanol/isopropanol sanitizer hazards and marks product-specific fields as unverified.

1. Identification / التعريف بالمادة

Product identifier	Handy Gel Sanitizer
Other means of identification	Commercial alcohol hand sanitizer gel; exact formula not provided
Recommended use/restrictions	Hand sanitizing only as labeled. External use only; keep away from ignition sources.
Supplier/manufacturer	Not verified from attachments; obtain original manufacturer SDS for supplier details.
Emergency phone	Use local emergency services/poison center; product-specific number not verified.

2. Hazard(s) Identification / تحديد المخاطر

Classification	Highly flammable liquid and vapor; causes serious eye irritation; may cause drowsiness/dizziness at high vapor concentrations depending on alcohol.
Signal word	Danger
GHS pictograms	Flame; Exclamation mark
Hazards not otherwise classified	Commercial product-specific hazards may exist if the actual formula contains unlisted additives.

3. Composition / Information on Ingredients / التركيب والمكونات

Ingredient	CAS/Identifier	Concentration/status
Ethanol or isopropanol	CAS 64-17-5 or 67-63-0	Alcohol active ingredient; exact type/percentage not verified
Water, glycerol,	Mixture	Not verified

carbomer/thickener, neutralizer, fragrance		

4. First-Aid Measures / الإسعافات الأولية

- Inhalation: move to fresh air if dizziness or irritation occurs.
- Skin: intended for intact skin; discontinue and rinse if irritation/rash occurs.
- Eyes: rinse with water for several minutes; seek medical advice if irritation persists.
- Ingestion: rinse mouth; do not induce vomiting; call poison center/physician, especially for children.

5. Fire-Fighting Measures / مكافحة الحريق

- Suitable media: alcohol-resistant foam, dry chemical, CO2, or water spray.
- Vapors can form explosive mixtures with air and travel to ignition sources.
- Firefighters should use SCBA and keep containers cool.

6. Accidental Release Measures / إجراءات الانسكاب العرضي

- Remove ignition sources and ventilate.
- Absorb with inert non-combustible material; place in suitable flammable-waste container.
- Prevent bulk release to drains.

7. Handling and Storage / التداول والتخزين

- Keep away from heat, sparks, open flames, and smoking until hands are dry.
- Avoid eye contact and ingestion.
- Store tightly closed in a cool, well-ventilated place away from oxidizers.

8. Exposure Controls / Personal Protection / التحكم بالتعرض ومعدات الوقاية

- Ethanol: NIOSH/OSHA TWA 1000 ppm (1900 mg/m3).
- Isopropanol: NIOSH/OSHA TWA 400 ppm (980 mg/m3); STEL 500 ppm (1225 mg/m3).
- Use ventilation for bulk handling; wear eye protection and gloves for spill response.

9. Physical and Chemical Properties / الخواص الفيزيائية والكيميائية

Appearance	Gel; color not verified
Odor	Alcohol/fragrance
Flash point	Expected flammable if alcohol content is 60-80%; exact value not verified
Solubility	Miscible/dispersible in water
Vapor pressure	Alcohol-dependent

10. Stability and Reactivity / الثبات والتفاعلية

- Stable under normal use.

- Avoid heat, ignition sources, static discharge, and strong oxidizers.

11. Toxicological Information / المعلومات السمية

- Eye contact causes irritation.
- Inhalation of concentrated vapor may cause headache, dizziness, or drowsiness.
- Ingestion can cause alcohol poisoning, especially in children.

12. Ecological Information / المعلومات البيئية

- Alcohols are volatile and biodegradable, but bulk release should be prevented.
- Product-specific ecological data not verified.

13. Disposal Considerations / اعتبارات التخلص

- Dispose of unused product, residues, and contaminated packaging according to Saudi/local hazardous waste and infection-control procedures.
- Do not pour concentrated hazardous chemicals to drain unless the product label, facility procedure, and local regulation allow.
- Do not mix chemical waste streams; segregate oxidizers, flammables, chlorine-releasing products, and antiseptics.

14. Transport Information / معلومات النقل

- Likely flammable liquid if shipped in bulk; UN1170 Ethanol solution or UN1219 Isopropanol may apply depending on alcohol type/percentage; verify product SDS.
- Transport classification can change with package size, concentration, and local modal rules; verify before shipping.

15. Regulatory Information / المعلومات التنظيمية

- Prepared to follow the 16-section SDS format used in OSHA/GHS-aligned hazard communication.
- Sections 12-15 are included for completeness although some jurisdictions treat them differently.
- This document is not a substitute for the original manufacturer SDS, label, Ministry/SFDA requirements, or facility chemical risk assessment.

16. Other Information / معلومات أخرى

Prepared by	Codex-assisted reference compilation for Al Sultan Medical Complex
Revision	1.0
Preparation date	17 August 2026
Reliability statement	Public authoritative sources were used where available; unverified commercial product data are explicitly marked.
